SIMPLE COMBOS™ EASY-TO-DIAL COMBINATIONS

ADA COMPLIANCE DEFINED

The Master Lock® 3681 Electronic Built-In Lock, 1600 ADA Series and 1700 ADA Series Built-in Locks meet the United States Department of Justice "2010 ADA Standards for Accessible Design". This Standard requires 5% of lockers meet ADA specifications. In addition, these standards state that operable parts, the locks, meet the following requirements:

- Shall be operable with one hand
- Shall not require tight grasping, pinching, or twisting of the wrist to operate
- Shall have a force required to activate of 5 lbf (22.2N) maximum

Master Lock ADA Compliant Mechanical Locker Locks achieve these requirements through the use of a specially designed keyhead and the simple operation of the lock. The large flat keyhead makes the key easy to grip for those with extreme joint pain. For those with clenched fist dexterity, the flat keyhead fits securely between their fingers. The operation of the lock can be achieved by a simple bumping action to the ADA keyhead to both open and close the lock without the need of tight grasping, pinching, or twisting of the wrist.

As needs and requirements vary, please consult the local authority regarding use of any of these locks for a specific application.

3681 ELECTRONIC BUILT-IN LOCK

3681
For single point latch lockers, deadbolt operation

- Bluetooth fob for fast and easy operation
- Each lock comes paired with one fob
- Can also be used as non-ADA single- or multi-user lock

ADA INSPIRED DEFINED

Master Lock ADA Inspired locks address special needs beyond those outlined in the "2010 ADA Standards for Accessible Design". These portable locks are designed to be easy to use and assist those with physical or cognitive challenges operate a lock independently. All ADA Inspired locks fit most standard lockers.

1525EZRC Simple Combos™

- Simple Combos™ – specially selected combinations that use only numbers printed on the dial (no sub-increments) so users can more easily recall and dial their combination
- Supervisory key override matches existing Master Lock portable systems, plus key can also be matched with many built-in combination lock systems
- Colored dials – black, green, purple, red, blue, orange, grey or gold, and customization with your logo or text available

2650 PushKey™

- Easy-to-open and simple-to-use – simply insert the key and pull down on the flared, easy-to-grip body to open (no key turning required)
- Includes four keys, two with large key head covers which makes gripping easy for anyone
